

## Vinous 2024 scores for Perelada

We are delighted to share some new scores for Perelada from the esteemed wine publication; Vinous.

Perelada and its wines are recognised in the most recent online reports, titled "The Rambunctious Catalan Mediterranean and Beyond" and "From Revolution to Evolution: The Garnatxas and Cariñenas of Priorat & Montsant." These articles are the result of Joaquín Hidalgo's visit to Spain earlier this year, the journalist and wine critic visited the winery and he tasted these wines.

Within the reports Hidalgo highlights the heterogeneity of the Empordà region: "The slopes of the Cap de Creus offer breathtaking views. This coastal promontory, bordering France where the Pyrenees plunge into the sea, embodies the essence of Empordà as a DO: sun-drenched vineyards, a plethora of aromatic herbs and Mediterranean influence. The region's nearly 2,000 hectares are split between 42 producers." The full reports and tasting notes can be viewed at [vinous.com](https://www.vinous.com)
